**Curriculum** English, Health, ICT  
**Competency** ‘Contributing & Participating’ ‘Relating to Others’ (cooperative pairs)  
**Lesson Sequence**  
Explanation of task / modelling planning and camera use (20 minutes)

- ✓ show props that can be used for photographs
- ✓ create a plan for demonstration of sun safety practices(20 minutes)
- ✓ take photographs according to ideas contained in plan (20 minutes)

Model downloading of photographs – children to be guided to download their photos  
Model and guide through use of Photostory – children to be guided through the process

- ✓ publish and share

Year 2 teachers please select your students as a cooperative pair rather than as individuals, as this task relies on their ability to work well with their partner, also to stay on task and get the job done. It is not necessary for students to have used Photostory before as they will be guided at each step of the process.

It is up to you how you select your participants – some schools have got those children that are interested to write / apply with a persuasive letter as to why they should be selected.

When you have selected your participants please see your lead teacher for a permission note to send home.
